

ALCHEWAT AGRO AKTIV

ACTIVATED AGRICULTURE

ALCHEWAT Agro Aktiv promotes plant growth and treats the soil. This supports root formation and the general health of the plant. The device promotes the growth of plants, extends the flowering time and at the same time makes them more hardened and more resistant to pests and weather fluctuations.

Our **ALCHEWAT** Agro Aktiv devices are used to stimulate biological growth and metabolic processes by means of biophysical processes based on the resonance principle, i.e. through activated metal alloys and minerals. Our technologies are used in horticulture and agriculture to stimulate plant growth and reduce the need for chemical insecticides, fungicides and pesticides.

DEVICE FOR IMPROVING
THE QUALITY OF PLANTS

PROMOTES GROWTH IN
PLANTS

ACTIVATION OF NATURAL
REGENERATION AND
BIOLOGICAL PROCESSES

ACCELERATING PLANT
AND TREE GROWTH

ACTIVATION OF NATURAL
SELF-REGENERATING
FORCES IN PLANTS

SOIL REVITALIZATION
(ACTIVATION OF MICRO-
ORGANISMS)

IMPROVEMENT OF THE
WATER BUDGET
IN THE FLOORS

ALCHEWAT AGRO AKTIV

ACTIVATED AGRICULTURE

The device requires no electricity, no chemicals, can be set up by yourself, is maintenance-free and has neither magnetic nor electrical effects. **ALCHEWAT** technologies inspired by the "Research Report of the Federal Ministry for Economic Cooperation and Development - Report E 5001-15"

Our devices are based on the concepts of the builders of ancient technologies such as the "Spine of Osiris" 1550 BC. Chr. (Device influencing the kinetics of organic and inorganic processes).

The assembly of the device only takes a few minutes, no complex construction work is necessary and it can be carried out at any time of the year.

SIGNIFICANT INCREASE IN
PLANT HEIGHT,
VEGETATIVE WEIGHT,
ROOT WEIGHT, BIOMASS
AND MICRO-NUMBER

SOIL HARMONIZATION

STRENGTHENING PLANT
VITALITY AND PLANT
GROWTH

ACTIVATION OF
BIOLOGICAL PROCESSES

IMPROVEMENT OF SOIL
AND WATER QUALITY

CAN BE USED FOR FRUIT
AND VEGETABLES,
HORTICULTURE, TREE
CULTURES ETC. BE USED

COLD RESISTANT
DOWN TO -20 ° C

HEAT RESISTANT
UP TO + 95 ° C

ALCHEWAT

TECHNICAL DATA

Model	ALCHEWAT Agro Aktiv
Application	Horticulture, agriculture, fruit growing and viticulture
Range	ca 6 ha
Diameter	160mm
Height	1600mm
Materials and components	(X5CrNi18-10), (X2CrNi18-9), (CuAg0,10P), SiO ₂ , SiO ₄ , high quality alpine spring water
Weight	20 kg
Guarantee	10 years on material and workmanship
Refund policy	2 years

OLD "TECHNOLOGIES" FOUND AGAIN?

In the sea of information in which we are immersed today, there is extraordinary news that unfortunately fades into the background. In 1911 my grandfather started collecting documents, patents, books and documentation on technologies for harmonizing the environment, humans and animals. My father started applying these theories and technologies in agriculture with positive results. In 1984 the third generation of our family began to follow this path and to test the "family technologies" and to develop them further. The various **ALCHEWAT** systems have been manufactured in Bolzano in South Tyrol since 2010. Our technology is based on the studies, theories and techniques of the great geniuses of history:

Ing. Bernard B. Kazhinski (1890-1962)

MD. Alexander G. Gurwitsch (1874-1954)

Ing. Georges Lakhovsky (186 – 1942)

Ing. Nikola Tesla (1856-1943)

Royal R. Rife (1888-1971)

MD. Dmitrij I. Mendelejew (1834-1907)

D. C. Wladimir I. Wernadski (1863-1945)

MD. Vladimir M. Bekhterev 1857-1927)
