

STRUCTURED AND VITALIZED WATER DIRECTLY FROM YOUR WATER PIPE

Water is far more than the famous chemical formula H_2O , water is life. It is an element that is not consumed and not significantly reformed. It flows through our globe for billions of years in a fascinating cycle.

Through **ALCHEWAT** Alpine Fountain, a water-structuring device and lime treatment, the water gets its original natural information back.

ALCHEWAT renatures, structures and vitalizes the flowing water. With the help of biomagnetic induction and transmaterial catalysts the water gets structured and regains its original quality. This structured water can help the human body to detox itself.

The device transfers the structure of the modulated water on to the regular water in the pipes. The molecules in the water get altered and it reaches a similar quality as pure spring water.

FRESH FLAVOUR
AND A FINE TASTE

WELL-BEING WHILE
SHOWERING OR
TAKING A BATH

RE-STRUCTURING
OF THE WATER

STABILIZED HARDNESS
AND HOMOGENE LIME

Made in South Tyrol

NATURAL WATERSTRUCTURING

NATURAL AND FRESH WATER

The home source system from ALCHEWAT can be used to supply a dwelling, a private house, a business building, a hotel or a small business with nature-structured water.

The device can be mounted on all pipe materials (with plastic pipes, the effect occurs later), a 10 cm free pipe section should suffice. ALCHEWAT is ideally mounted behind the water meter, pressure reducer and filter. In the case of a warm water vitalization, the device is mounted after the boiler outlet.

Our devices use a mix of minerals, precious metal alloys, diamagnetic transition metals and spring water from the Alps that has no direct contact with your water. The molecular structure of the water is favorably influenced and changed by the vibration and resonance spectrum. The device does not require any electricity, does not contain any chemical substances, can be installed by itself without interfering with the water supply system, is maintenance-free and has neither magnetic nor electrical effects.

Simple montage you can do by yourself

No need to open any pipes!

**STRUCTURED PIPE – AND
SANITARY WATER**

**SOLUTIONS FOR VARIOUS
BUSINESSES,
AGRICULTURE
AND INDUSTRIES**

**NO NEED FOR
MAINTENANCE**

PERMAMENT EFFECT

**INSTALL DEVICE AFTER
WATER CLOCK AND
PRESSURE REGULATOR**

**SIMPLY SCREW THE PLATE
ONTO THE PIPE WITH THE
TWO SCREWS TO MOUNT
THE DEVICE**

**By using Alchewat Alpine
Fountain in residential
complexes, combined with
our optimization measures for
the hot water treatment
system, the risk of Legionella
formation can be
effectively reduced!**

MONTAGE EXAMPLES

FUNCTION - SHORT DESCRIPTION AND SCHEMATICS

Two elements in the chamber of the **ALCHEWAT** device are generating impulses as three metals are exposed to an ultra weak electro-magnetic field, which is transferred into a resonance field across the heating and process water loop. The magnetic field density in the internal body of the **ALCHEWAT** device is max. 48 Nanotesla (nT). The magnetic field of the device is max. 1 mA/m. Therefore all limits conform with the prescribed limits set forth by EPA and EU guidelines 2013/35/EU causing no harm to animals or humans.

The effect of the **ALCHEWAT** system described by us is based on the conviction that water changes or improves its biological and also physico-chemical behavior through its use.

ALCHEWAT is able to restructure the water molecules into hexagonal clusters using a magnetic resonance in the water at a frequency of 22,5 Hz. The water molecules consist of hydrogen and oxygen atoms with a slightly positive charge near the two hydrogen atoms and can so build hexagonal clusters by connecting hydrogen with the nearby negative oxygen atoms.

The cylinder simply gets attached to the water pipe. Power lines, electrical control and distribution panels should not be placed in the vicinity of the **ALCHEWAT**-Structured Water device.

Although classical natural science does not yet recognize the effects we have described, several complementary scientific studies, our own empirical research and the positive experiences and feedback from our customers confirm the positive effects of our technologies.

TECHNICAL DATA

Model	ALCHEWAT Alpine Fountain 50	ALCHEWAT Alpine Fountain 200
Application	House water pipe, drinking water	
Water temperature	1°C to 95°C (beware of frost)	
Water pipe	Ø max. 1,5" (50 mm)	Ø max. 6" (200 mm)
Dimensions	Ø 76 mm x 200 mm	Ø 154 mm x 300 mm
Materials and Components	Precision-engineered stainless steel (X5CrNi18-10, X13CrMnMoN18-14-3), high-grade oxygen-free copper (Cu-DHP), crystalline silicon dioxide (SiO ₂), purest alpine spring water from protected high-altitude sources, and energy-active tourmaline mineral granulate.	
Weight	2,7 kg	9,5 kg
Maintenance/Service (optional)	Annual measurements and visual inspections through our service technician	

All values are well below the limit values of Directive 2013/35 / EU and are completely harmless and pose no risk to humans.

The specified services and measurements depend on the respective water quality and the water pressure of the circuits and can vary.

WARRANTY AND GUARANTEE

1 Month Return Policy - 10 Years of guarantee

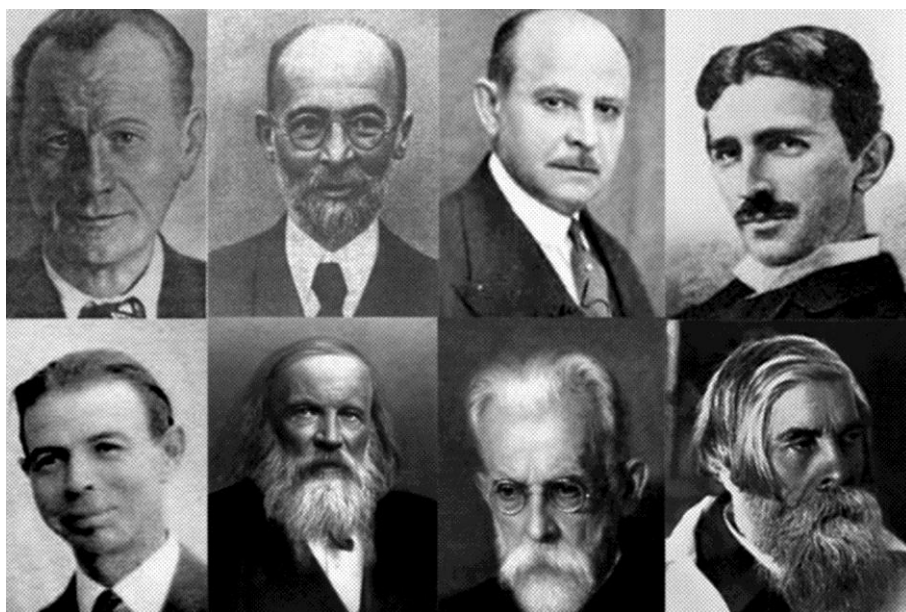

The **ALCHEWAT** structured water device is made out of high quality X5CrNi18-10-Stainless Steel. The devices are built to last and will work for many years without losing efficiency.

These devices are made in South-Tyrol (near Austria) and have been in use there since 2010 as well as in the USA and Europe. Our first prototypes were assembled in 1998 and still work. That means we provide you with a **10-year guarantee** on material and workmanship.

However, if you feel that our product does not meet your expectations, you can make use of your right of return within **1 month** of purchase and you will receive back the full purchase price! The **ALCHEWAT** device must be returned completely and intact in its original sales packaging to us (info and processing: info@alchewat.com).

OLD "TECHNOLOGIES" FOUND AGAIN?

In the sea of information in which we are immersed today, there is extraordinary news that unfortunately fades into the background. In 1911 my grandfather started collecting documents, patents, books and documentation on technologies for harmonizing the environment, humans and animals. My father started applying these theories and technologies in agriculture with positive results. In 1984 the third generation of our family began to follow this path and to test the "family technologies" and to develop them further. The various **ALCHEWAT** systems have been manufactured in Bolzano in South Tyrol since 2010. Our technology is based on the studies, theories and techniques of the great geniuses of history:

Ing. Bernard B. Kazhinski (1890-1962)

MD. Alexander G. Gurwitsch (1874-1954)

Ing. Georges Lakhovsky (186 – 1942)

Ing. Nikola Tesla (1856-1943)

Royal R. Rife (1888-1971)

MD. Dmitrij I. Mendelejew (1834-1907)

D. C. Wladimir I. Wernadski (1863-1945)

MD. Vladimir M. Bekhterev 1857-1927)
